Education

University of Central Florida Orlando, Florida
B.A. in Digital Media. *Spring 2028*

Experience

Web and Digital Media Intern (Academic Credit Internship) Spring 2026 – Summer 2026 *JBIER*

- Restored product visibility and checkout functionality on Instagram Shop to improve the customer-facing shopping experience.
- Researched FAQ and review page structures to inform design enhancements to JBIER's website.
- Organized and categorized 38 alumni testimonials for accurate and structured presentation on the site.
- Designed and edited product visuals using Canva to support brand consistency.
- Audited product photo assets and documented missing content to guide future visual updates.

Activities & Leadership

Knights Design Interactive (KDI), UCF Fall 2026 – Present
Mid-Fidelity Design Lead

- Create mid-fidelity wireframes and page layouts using Figma.
- Organize content and establish clear visual hierarchy.
- Communicate layout decisions to the team
- Collaborate to refine designs based on feedback.

Society of Asian Scientists and Engineers (SASE), UCF Fall 2026 – Present
UI/UX Designer, Web Development Team

- Redesign the events page in Figma to improve layout and content organization.
- Design a new gallery system to showcase event photos.
- Communicate design concepts and proposed interactions to the web development team.

Asian Student Association, UCF Fall 2026 – Present
Co-PR Director

- Redesign Instagram Highlights to align with major ASA event themes.
- Edit Instagram Reels and write captions to promote events and engage members.
- Outreach to other UCF clubs to support event promotion and collaboration.

Projects

Portfolio Website

- Designed and built a multi-page responsive portfolio site with Home, About, Portfolio, and Contact sections using HTML, CSS, and JavaScript.

Instagram Mock Layout

- Redesigned a mock layout of Instagram featuring clickable stories, focusing on visual hierarchy and interface structure.

Ink Game

- Created an interactive story-based game built with Ink and styled with HTML and CSS.

Bookstore Site

- Developed an interactive bookstore website where users can browse, add, and checkout books.

Weather App and Calculator

- Developed a weather app displaying city data via API integration alongside a functional calculator.

Rock Paper Scissors Game

- Built an interactive browser game with JavaScript logic and a computer vs. player mode.

Memory Game

- Built an interactive memory card matching game using JavaScript logic.

To-Do List App

- Developed a task management app with add and delete functionality.

Music Player

- Built a music player that allows users to switch between and listen to tracks.

Procreate Illustration

- Created an original digital artwork in Procreate for inclusion in a creative portfolio.
